

Pilot Mall Open House: Aviation Communications 101 and Technology in the Cockpit

When you are on the radio listening to a busy frequency, do you ever wish you were like that other guy? You know, the one who can talk fast, pure "aviation" lingo, and always seems to get answered quickly and efficiently by ATC? Come learn a few tricks and technologies that will help you communicate better, and more efficiently with ATC. This session can take the stress out of communications in the air. Better yet, learn how to ask ATC so that you get the routing, and the handling that you want.

Directions: The Pilot Mall Aviation Superstore, 4040 Laird Blvd, Lakeland, is located behind SUN 'n FUN Hangar B on the SUN 'n FUN Complex at the southwest corner of Lakeland-Linder Airport.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
